

STATE OF CALIFORNIA
THE RESOURCES AGENCY
STATE WATER RESOURCES CONTROL BOARD
DIVISION OF WATER RIGHTS

ORDER

APPLICATION 18283

PERMIT 13531

LICENSE _____

ORDER APPROVING CHANGE IN POINT OF DIVERSION AND
AMENDING THE PERMIT

WHEREAS:

1. A petition to change the point of diversion in Lake Tahoe has been filed with the State Water Resources Control Board.
2. The Board has determined that the petitioned change does not constitute the initiation of a new right nor operate to the injury of any other lawful user of water.

NOW, THEREFORE, IT IS ORDERED THAT:

1. The point of diversion under this permit shall be as follows:

East 3,600 feet and South 2,200 feet from northwest corner of Section 18, T15N, R17E, MDB&M, being within NE $\frac{1}{4}$ of said Section 18.

2. New Paragraph 9 is added as follows:

Pursuant to California Water Code Sections 100 and 275, all rights and privilege under this permit and under any license issued pursuant thereto, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the State Water Resources Control Board in accordance with law and in the interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use, or unreasonable method of diversion of said water.

The continuing authority of the Board may be exercised by imposing specific requirements over and above those contained in this permit with a view to minimizing waste of water and to meeting the reasonable water requirements of permittee without unreasonable draft on the source. Permittee may be required to implement such programs as (1) reusing or reclaiming the water allocated; (2) using water reclaimed by another entity instead of all or part of the water allocated; (3) restricting diversions so as to eliminate agricultural tailwater or to reduce return flow; (4) suppressing evaporation losses from water surfaces; (5) controlling phreatophytic growth; and (6) installing, maintaining, and operating efficient water measuring devices to assure compliance with the quantity limitations of this permit and to determine accurately water use as against reasonable water requirements for the authorized project. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such specific requirements are physically and financially feasible and are appropriate to the particular situation.

(0000012)

3. Paragraph 10 is added to this permit as follows:

The State Water Resources Control Board, under its authority to conserve the public interest, retains continuing authority over this permit to require permittee to develop and implement a water conservation program, after notice and opportunity for hearing. The requirements for this term may be satisfied by permittee's compliance with any comprehensive water conservation program, approved by the State Water Resources Control Board, which may be imposed by a public agency. (0420999)

4. Permittee shall not provide any water service connection serving any new development within the Tahoe City-Tahoe Tavern Water System service area which is prohibited by or would result in a violation of the terms of Table IV-5 on page 165 of the Final Lake Tahoe Basin Water Quality Plan adopted by the State Water Resources Control Board. The California Regional Water Quality Control Board, Lahontan Region, shall make any determination necessary to apply this term. This term may be amended to conform to amendments to the Lake Tahoe Basin Water Quality Plan adopted or approved by the State Water Resources Control Board. Amendment of this term shall be made only after notice to interested parties and opportunity for hearing. (0000999)

5. Permittee shall provide continuous water metering of all sources of water supply to and from the Tahoe City-Tahoe Tavern system including all points of diversion from surface or groundwater supplies and all interconnections with other water systems. (0000999)

6. Permittee shall provide irrigation water which may be reasonably required to revegetate and stabilize all unvegetated and disturbed areas within the Tahoe City-Tahoe Tavern Water System service area as part of erosion control projects which are conducted by the State of California, or conducted by local government, approved by the California Regional Water Quality Control Board, Lahontan Region, and implemented in conformance with the Lake Tahoe Basin Water Quality Plan. Permittee is not required to provide irrigation water as part of this term if such provision would jeopardize public or private health, safety or welfare or the delivery of domestic water supply to the service area. Permittee shall allow connections for the water system for any required irrigation system. The District may charge reasonable fees, based on reasonable operating costs, not including water system capital costs, for the irrigation water. (0000999)

Dated: MARCH 9 1982

Raymond Walsh

Raymond Walsh, Chief
Division of Water Rights

10-10-68

The State Water Resources Control Board, under its authority to consider the public interest, retains continuing authority over this permit to require permittees to develop and implement a water conservation program, afford notice and a hearing for hearings, to require permittees for this permit to be satisfied by permittees' compliance with any other positive water conservation program approved by the State Water Resources Control Board, which may be imposed by a public agency.

4. The State shall not provide any water service connection to any of the following within the Lake Tahoe Basin Water System service area which is prohibited by or would result in a violation of the Lake Tahoe Basin Water Control Board. The following is hereby adopted by the State Water Resources Control Board. The following is hereby adopted by the State Water Resources Control Board, which may, at its discretion, modify this order. This order may be amended to conform with any amendments to the Lake Tahoe Basin Water Quality Act or any amendments to the State Water Resources Control Board. A violation of this order shall be made only after notice is furnished to the violator and opportunity for hearing.

RECEIVED NOTICE OF ASSIGNMENT TO

Tahoe City Public
Utility District

[For full information concerning the filling out of this form refer to
Article 4 of Rules and Regulations Pertaining to Appropriation of Water]

STATE OF CALIFORNIA—STATE WATER RIGHTS BOARD

Application No. 18283 Filed August 25, 1958, at 1:28 P.M.
(Applicant must not fill in the above blanks)

APPLICATION TO APPROPRIATE UNAPPROPRIATED WATER

I, Tahoe Tavern Heights Water Company
Name of applicant or applicants

of P. O. Box 191, Tahoe City County of Placer
Address

State of California, do hereby make application for a permit to appropriate the
following described unappropriated waters of the State of California, **SUBJECT TO VESTED RIGHTS:**

Source, Amount, Use and Location of Diversion Works

1. The source of the proposed appropriation is Lake Tahoe

Give name of stream, lake, etc., if named; if unnamed state nature of source and that it is unnamed

located in Placer County, tributary to Truckee River

2. The amount of water which applicant desires to appropriate under this application is as follows:

(a) For diversion to be directly applied to beneficial use 0.9 0.4 see decision 1056 L.H. cubic feet per
1 cubic foot per second equals 40 statute miner's inches or 646,317 gallons per day

second, to be diverted from January 1 to December 31 of each year.
Beginning date Closing date

(b) For diversion to be stored and later applied to beneficial use _____ acre-feet
1 acre-foot equals 325,851 gallons

per annum, to be collected between _____ and _____ of each season.
Beginning date Closing date

NOTE.—Answer (a) or (b) or both (a) and (b) as may be necessary. If amount under (a) is less than .025 cubic foot per second, state in gallons per day. Neither the amount nor the season may be increased after application is filed. If underground storage is proposed a special supplemental form will be supplied by the State Water Rights Board upon request.

3. The use to which the water is to be applied is Domestic

Domestic, irrigation, power, municipal, mining, industrial, recreational

_____ purposes.

4. The point of diversion is to be located Approximately 4250 feet east and 700 feet south of

State bearing and distance or coordinate distances from section or quarter section corner.

NW corner of Section 18, T15N, R17E, MDB&M,

being within the NE $\frac{1}{4}$ of NE $\frac{1}{4}$

State 40-acre subdivision of public land survey or projection thereof

of Section 18, T. 15N, R. 17E, M. D. B. & M., in the County of Placer

1. SW $\frac{1}{4}$ of NW $\frac{1}{4}$ 1. 18

5. The main conduit terminates in 2. SE $\frac{1}{4}$ of SW $\frac{1}{4}$ Sec. 2. 7, T. 15N, R. 17E, M.D. B. & M.
State 40-acre subdivision of U. S. Government survey or projection thereof

Description of Diversion Works

NOTE.—An application cannot be approved for an amount grossly in excess of the estimated capacity of the diversion works.

6. Intake or Headworks (fill only those blanks which apply)

(a) Diversion will be made by pumping from Lake Tahoe

Sump, offset well, unobstructed channel, etc.

(b) Diversion will be by gravity, the diverting dam being _____ feet in height (stream bed to

level of overflow); _____ feet long on top; and constructed of _____
Concrete, earth, brush, etc.

(c) The storage dam will be _____ feet in height (stream bed to spillway level); _____ feet

long on top; have a freeboard of _____ feet, and be constructed of _____
Concrete, earth, etc.

7. Storage Reservoir None

Name

The storage reservoir will flood lands in _____

Indicate section or sections, also 40-acre subdivisions unless shown upon map

It will have a surface area of _____ acres, and a capacity of _____ acre-feet.

In case of insufficient space for answers in form, attach extra sheets at top of page 3 and cross reference.

8. Conduit System (describe main conduits only)

(a) Canal, ditch, flume: Width on top (at water line) _____ feet; width at bottom _____ feet; depth of water _____ feet; length _____ feet; grade _____ feet per 1,000 feet; materials _____ of construction _____ Earth, rock, timber, etc.

(b) Pipe line: Diameter _____ 6 inches; length _____ 5000 feet; grade _____ feet per _____ 1,000 feet; total lift _____ 320 feet; kind _____ steel _____ Riveted steel, concrete, wood-stave, etc.

NOTE.—If a combination of different sizes or kinds of conduit is to be used, attach extra sheets with complete description, also show location of each clearly on map.

9. The estimated capacity of the diversion conduit or pumping plant proposed is 0.9 cfs State cubic feet per second or gallons per minute The estimated cost of the diversion works proposed is \$25,000 Give only cost of intake, or headworks, pumps, storage reservoirs and main conduits described herein

Completion Schedule

10. Construction work will begin on or before _____ complete

Construction work will be completed on or before _____ complete

The water will be completely applied to the proposed use on or before _____ in use

Description of Proposed Use

11. Place of Use. SW $\frac{1}{4}$ of SW $\frac{1}{4}$ and SE $\frac{1}{4}$ of SW $\frac{1}{4}$ of Section 7, T15N, R17E, NW $\frac{1}{4}$ of NW $\frac{1}{4}$ and NE $\frac{1}{4}$ of NW $\frac{1}{4}$ and SW $\frac{1}{4}$ of NW $\frac{1}{4}$ and SE $\frac{1}{4}$ of NW $\frac{1}{4}$ and NW $\frac{1}{4}$ of SW $\frac{1}{4}$ of Section 18, T15N, R17E, MDB&M. 40-acre tracts, describe area in a general way and show detail upon map.

Do (es) applicant(s) own the land whereon use of water will be made? No jointly? _____ Yes or No All joint owners should include their names as applicants and sign application at bottom of third page.

Public Utility - Deeded access. If applicant does not own land whereon use of water will be made, give name and address of owner and state what arrangements have been made with him.

12. Other Rights. Describe all rights except those on file with the State Water Rights Board under which water is served to the above named lands.

Nature of Right (riparian, appropriative, purchased water, etc.)	Year of First Use	Use made in recent years including amount if known	Season of Use	Source of Other Supply
1.				
2.				
3.				
4.				

Attach supplement at top of page 3 if necessary.

13. Irrigation Use. The area to be irrigated is _____ acres. State net acreage to be irrigated The segregation of acreage as to crops is as follows: Rice _____ acres; alfalfa _____ acres; pasture _____ acres; orchard _____ acres; general crops _____ acres; Care should be taken that the various statements as to acreage are consistent with each other, with the statement in Paragraph 11, and with the map.

The irrigation season will begin about _____ Beginning date and end about _____ Closing date

14. Power Use. The total fall to be utilized is _____ None Difference between nozzle or draft tube water level and first free water surface above _____ feet.

The maximum amount of water to be used through the penstock is _____ cubic feet per second.

The maximum theoretical horsepower capable of being generated by the works is _____ horsepower. Second feet \times fall \div 8.8

The use to which the power is to be applied is _____ For distribution and sale or private use, etc.

The nature of the works by means of which power is to be developed is _____ Turbine, Pelton wheel, etc.

The size of the nozzle to be used is _____ inches.

The water will be returned to _____ Name stream

Sec. _____ T. _____ R. _____ B. & M. _____ State 40-acre subdivision _____ of _____

FORM 51-A

IMPORTANT

[Please Read Carefully]

1. Note the terms and conditions of this permit. Construction work must be prosecuted, and the water applied to the beneficial uses intended with due diligence. Annual reports of progress will be expected from you upon forms which will be furnished for the purpose. When the water has been fully applied to the beneficial uses intended the Water Code requires that you notify the State Water Rights Board thereof.
2. Neither this application nor the permit is a water right, but if the terms and conditions of the permit are observed a water right can be obtained through beneficial use of the water—the extent of the right to be determined by a field inspection which will be made by a representative of the State Water Rights Board.
3. No change in point of diversion, or place of use or character of use, can be made under this application and permit without the approval of the State Water Rights Board.
4. If the rights under this permit are assigned immediate notice to that effect with the name and address of the new owner should be forwarded to the State Water Rights Board, Sacramento, California.
5. Please advise immediately of any change of address. Until otherwise advised communications will be sent to the address used in the letter transmitting this permit.

PERMIT No. 13531

This is to certify that the application of which the foregoing is a true and correct copy has been considered and approved by the State Water Rights Board SUBJECT TO VESTED RIGHTS and the following limitations and conditions:

1. The amount of water appropriated shall be limited to the amount which can be beneficially used, and shall not exceed 0.4 cubic foot per second to be diverted from January 1 to December 31 of each year, and shall not exceed a total diversion of 135 acre-feet in any year. (0000005)
2. The maximum amount herein stated may be reduced in the license if investigation so warrants. (0000006)
3. Actual construction work shall begin on or before July 1, 1962, and shall thereafter be prosecuted with reasonable diligence, and if not so commenced and prosecuted this permit may be revoked (0000007)
4. Said construction work shall be completed on or before December 1, 1968. (0000008)
5. Complete application of the water to the proposed use shall be made on or before December 1, 1970. (0000009)
6. Progress reports shall be filed promptly by permittee on forms which will be provided annually by the State Water Rights Board until license is issued. (0000010)
7. All rights and privileges under this permit including method of diversion, method of use and quantity of water diverted are subject to the continuing authority of the State Water Rights Board in accordance with law and in the interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of diversion of said water. (0000012)
8. Permittee shall allow representatives of the State Water Rights Board and other parties, as may be authorized from time to time by said Board, reasonable access to project works to determine compliance with the terms of this permit. (0000011)

This permit is issued and permittee takes it subject to the following provisions of the Water Code:

Section 1390. A permit shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code), but no longer.

Section 1391. Every permit shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a permit is issued takes it subject to the conditions therein expressed.

Section 1392. Every permittee, if he accepts a permit, does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any permit granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any permittee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any permittee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

15. Municipal Use. This application is made for the purpose of serving _____
Name city or cities, town or towns. Urban areas only

_____ having a present population of _____

The estimated average daily consumption during the month of maximum use at the end of each five-year period until the full amount applied for is put to beneficial use is as follows:

16. Mining Use. The name of the mining property to be served is _____

Name of claim

_____ and the nature of the mines is _____

Gold placer, quartz, etc.

The method of utilizing the water is _____

It is estimated that the ultimate water requirement for this project will be _____

Cubic feet per second, gallons per minute. State basis of estimate

The water will be polluted by chemicals or otherwise _____
will not

Explain nature of pollution, if any

and it will be returned to _____
will not

in _____ of
State 40-acre subdivision

Sec. _____, T. _____, R. _____, B. & M. _____

17. Other Uses. The nature of the use proposed is _____

Domestic

Industrial, recreational, domestic, stockwatering, fish culture, etc.

State basis of determination of amount needed. 581 residences (ultimate development)

Number of persons, residences, area of domestic lawns and gardens, number and kind of stock, type

at 1000 gallons per day - 581,000 gallons per day or 0.9 cubic foot per second.

Industrial use, and unit requirements

General

18. Are the maps as required by the Rules and Regulations filed with Application? yes If not, state specifically the time required for filing same _____
Yes or No

19. Does the applicant own the land at the proposed point of diversion? yes If not, give name and address of owner and state what steps have been taken to secure right of access thereto _____
Yes or No

20. What is the name of the post office most used by those living near the proposed point of diversion?

Tahoe City, California

21. What are the names and addresses of claimants of water from the source of supply below the proposed point of diversion? none known.
